## **1 NEW FEATURES**

### **1.1 Management of part programs identified with numbers and letters**

From this version on, it is possible to send/receive CNC part programs whose names have letters and numbers. Feature available at the CNC from V2.10.

### **1.2 png/jpg/jpeg image handling**

From this version on, it is possible to send/receive images in png/jpg/jpeg format. It requires CNC version V2.10 or higher. These files will be used when customizing the CNC.

### **1.3 New more friendly and modern installer.**

## **2 VERSION COMPATIBILITY**

This version will be necessary for CNC versions V2.10 and higher to work properly with part programs identified with numbers and letters.

This WinDNC version will work fine with CNC versions older than V2.10.
